

# COOKIE POLICY

## **FINARIUM S.A.**

This Cookie Policy explains how FINARIUM S.A. ("FINARIUM", "we", "us" or "our") uses cookies and similar technologies when you visit <https://finarium.io/> or use web interfaces to which this Policy applies (the "Website").

## **What are cookies?**

Cookies are small text files stored on your computer, smartphone or other device when you visit a website. They allow a website to recognize a browser or device, maintain a session, remember selected settings and support the operation and security of online services. Cookies may contain an identifier, the website domain and other technical information.

## **What types of cookies do we use?**

FINARIUM may use the following categories of cookies and similar technologies, depending on the features of the Website and the services you access.

### **Account-related cookies**

Where account creation or onboarding functionality is available, cookies may be used to support the registration process, maintain the relevant session and administer account-related functionality. Some settings may remain after logout where this is necessary to remember your preferences or provide a consistent experience.

### **Login-related cookies**

When you sign in, cookies may be used to keep you authenticated while you navigate between pages and to protect access to restricted areas. Session or authentication cookies are normally removed, expire or become invalid after logout or when the relevant session ends.

### **Forms-related cookies**

When you submit information through a contact, onboarding or other web form, cookies or similar technologies may be used to support the submission, prevent duplicate requests, remember limited form information or facilitate future correspondence.

### **Site-preference cookies**

Cookies may be used to remember choices you make on the Website, such as interface or consent preferences, so that the Website can apply those settings during subsequent interactions.

**Analytics and performance cookies**

Where enabled, analytics or performance technologies may be used to understand how visitors use the Website, identify technical issues and improve functionality. Such technologies may collect information such as pages visited, interaction events, device or browser information and approximate usage patterns.

**Third-party security technologies**

The Website uses Google reCAPTCHA in connection with certain forms to help protect the Website against spam, abuse and automated submissions. Google may use cookies or similar technologies when providing this service. Google's processing is subject to its applicable terms and privacy documentation.

**How to manage or delete cookies**

You can restrict, block or delete cookies through your browser or device settings. Most browsers allow you to review stored cookies, remove them, block cookies from particular websites, or configure how cookies are handled in the future.

Please note that disabling certain cookies may affect the availability, security or performance of parts of the Website, including account, login, form or preference functionality. Browser help pages and device documentation provide instructions for managing cookie settings.

**Changes to this Cookie Policy**

We may update this Cookie Policy from time to time to reflect changes to the Website, the technologies we use, legal or regulatory requirements, or our operational practices. The current version will be made available through the Website.

**Contact us**

If you have questions about this Cookie Policy or the use of cookies on the Website, you can contact FINARIUM at [finarium@finarium.io](mailto:finarium@finarium.io) or through the contact form available at <https://finarium.io/>.
